Reviews

The book is great and fantastic. It usually does not price excessive. I am happy to tell you that this is the greatest ebook i actually have read during my personal existence and can be he very best ebook for possibly.

(Abbie Feest)

TECHNOLOGIC PAPERS VOLUME 101-110

DOWNLOAD

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 168 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 Excerpt: . . . low-voltage circuit is disconnected--and since any difference of potential between line and ground is shared in proportion to these capacities, a transient electrical disturbance on the line may puncture the insulation between low-voltage winding and case, this insulation not being designed to withstand high voltages. Mention should also be made here of the practice which is sometimes followed of using a common ground for a lightning arrester, a transformer core and case, and a low-voltage circuit. This is a good arrangement as far as the insulation of the transformer is concerned, but in the event of a discharge over the arrester, a high potential may be set up between low-voltage circuit and ground which may be a source of danger to a person touching fixtures at the time the discharge occurs. As shown more fully under Section III, 7, following, it is quite necessary to safety that a separate ground connection be provided for the lightning arrester. (e) Pomr or Armcmn nr on GROUND WIRES TO Pourpnase LOW-VOLTAGE CIRCUITS. --In general it may be stated that in grounding polyphase low-voltage secondary circuits, an effort should be made to attach the ground wire to the point in the circuit or to the circuit wire which will give the lowest voltages between wires and ground. The reasons here are the same as for single-phase circuits, and where polyphase circuits are used for! P. M. Lincoln, Grounding of low-Tension Circuits as a Protective Measure, convention report N. E. L. A....
