Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Brand New Book ***** Print on Demand *****.Modern technology has removed us from the natural arena, and placed us in this artificial environment of our own creation. This has added a new and unique twist to the way we interact, and is possibly one of the greatest changes we have ever faced. This new world created by technology seems to have endless possibilities. It is a place where forward planning and automation increases the gap between actions and consequences, where the gray areas between what is said and what is done have expanded to a point where the connection is often almost untraceable. The first half of the twentieth century, we put our new mastery of technology to use by fighting extremely violent wars on a global scale. Among the first lessons we learned is how destructive technology can be. We released the power of nuclear fission, and at least we were smart enough to be terrified of what we had unleashed. The second half of the twentieth century was an era of excess, not only of drugs, sex, and rock-n-roll, but also of monster trucks, giant mansions, and celebrity worship. We had quickly developed into a disposable society where consumption was necessary to keep the gears of our market economy turning. Industrial pollutants threatened our environment, while poverty and ghetto violence isolated and segregated us behind our TVs and jobs. The alternative to our world of excess was a world living under a totalitarian government where opportunity had been vastly removed. The world's super powers, divided between these extremes, engaged in a cold war rivalry based on competing economic philosophies, where the people of the third world were often used as pawns.
